## Protest/Rally - 6/11 3pm

### JEREMY SCAHILL TO SPEAK

We've been witnessing an unprecedented abuse of federal muscle at the Cal-Mex border where Blackwater has opened their so-called "vocational training" facility – a toehold of a new invasion of our country, shrouded in the flag and hidden in national security dogma.

Simply speaking, private profiteering and public security are a dangerous mix. First explained by President Eisenhower in 1961, he noted the rise of the armament industry of vast proportions and the danger of unwarranted influence by the military industrial complex. "The potential for the disastrous rise of misplaced power exists and will persist. We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals."

The military-industrial complex has taken another step in a extreme privatization agenda which has enabled private contractors, such as Halliburton, KBR, CACI, Titan, and many others to step beyond the fabrication of armaments and engage in military operations. With the advent of Blackwater and other mercenary firms, contractors engage in battlefield deployment. With higher profits ensured for a battle that continues without end, the Iraq occupation is proof that Eisenhower was right. This must stop. We must wake up.

Blackwater used the federal courts with a disgusting series of steps shielding their activities from public scrutiny to gain a foothold in California, a new base at the border that will grow without bound like a cancer. All patriotic citizens must throw down the gauntlet and say stop to this madness.
