Hello Kammi Foote:

Thank you for your reply.

It appears that you are mostly in compliance with the protocol except that we are requesting a full snapshot of the election results (broken down by precinct, polls votes and VBM votes) PRIOR TO the 1% manual draw. I looked at the "election results data" on the website and that is helpful, but does not accomplish the goal of thwarting election fraud.

--> Please let me know if it will be possible for you to upload the snapshot data to our server OR if you prefer, post it to your website with certification that it was prepared PRIOR to the selection of the random precincts. This data file must be broken down by PRECINCT so we can compare directly the snapshot data with any precincts you might select for 1% manual tally.

Good afternoon,

I have received your request and all election results data is posted on our website beginning election night. Any member of the public may access this information here: <http://elections.inyocounty.us/p/election-results.html> . The random draw for the 1% manual tally takes places after the posting of election results.

In Inyo County we do not prepare a specific report of the 1% manual tally other than the certification that it was prepared as required by law.

Thank you,

Kammi Foote

Subject: COPS Request for 'Snapshot Protocol' Information

Dear Kammi Foote, Clerk/Recorder & Registrar of Voters:

Please accept the attached PDF document.

First, we would appreciate an explicit confirmation of your reception of the document and that it is legible.

Second, we ask that you provide the information requested per the Public Records Act, or any other similar regulation. It is our intent to improve your resistance to election fraud if you follow the Snapshot protocol described herein.

THANK YOU!
