Hi Henry--

Mike Peevey called to say that on February 12 a Recognition Dinner for Mike Peevey will be held at the Julia Morgan Ballroom in SF. Susan Kennedy is heading up a committee of about 30 hosts and the MC will be Willie Brown. Any funds that the event generates above the cost of putting it on will go to GSPP, Mike asks that you join the Host Committee,

He would like to know at your earliest convenience. Also, he said that he and Carol would like to have dinner with us the next time we are in LA (2-26-27).

Annette:

People's retirements only occur once and I'm really hoping that I can make this -- it certainly trumps a talk by Tom Steyer -- I know that Steyer is important, but he's not retiring.

Very best, Henry Brady

Dear Don,

Many thanks for taking care of the details regarding the distribution to the Goldman School of the net proceeds from Mike Peevey's testimonial dinner, to be held on February 12, 2015 at the Julia Morgan ballroom in San Francisco.

Here is the Goldman School's acknowledgement of the gift of the net proceeds from the recognition dinner:

This evening's net proceeds will be donated to the Dean's Opportunity Fund of UC Berkeley's Goldman School of Public Policy. Dean Henry E. Brady thanks all who attended for supporting the programs of the nation's leading graduate school of public policy analysis.

Once you have calibrated the net proceeds, the most expeditious manner to donate the funds would be to write a check made out to the UC Berkeley Foundation. Please write in the notation line that it is for the Goldman School of Public Policy Dean's Opportunity Fund.

Thank you and I look forward to meeting you at the dinner.

Best,

Annette

Hi Henry,

Annette and I got a call today from Ray Lutz of Citizen's Oversight [REDACTED] and I am concerned with the threatening tone towards us.

He said that if we don't pull out of the Peevey tribute this week (as a beneficiary of the event) that we will "feel the pressure". Other comments:

- if the dean does not call me back today, I will tell the press at our protest at this event that he did not call me back today
- who are the attendees?
- he described the allegations of this "criminal"
- we are receiving tainted money
- he wants us to pull out of the event and that is our "only option"
- he will have many people call us many times

Henry is speaking with Ray right now.

Already just after he hung up we got calls from Tara Sheevey [REDACTED] and Bruce Campbell [REDACTED]. [REDACTED] Bruce wants a call back from a decision maker about our attendance with the tribute. Ther [REDACTED] Patricia Borchmann called from San Diego to "remind the Goldman School Center not to accept money from this event".

Dear Beth,

If you could check on the status of any forthcoming donation from Micheal Peevey and get back to me, I would really appreciate it. His conflicts of interest and alleged violations of federal and state regulations are currently under investigation. It would be hard to turn down money, I know, but this is tainted money given with suspicious timing. It is very sad to see Mr. Peevey being honored when there is so much evidence that he has been colluding with power utilities while on the California Public Utilities Commission. I had a contract job with one of the intervenor groups that required me to be at the last hearing regarding the ratepayer charges for the San Onofre Nuclear Power Plant closure.

Mr. Peevey's arrogance and rudeness were appalling. At the end of the hearing, he started yelling and swearing at we intervenors. It is tarnishing the reputation of the Goldman School of Public Policy or the University to be involved with him.

Please let me know what the administration decides on this issue via an email to this address. Both my in-laws are UCB graduates and my husband was named after his grandfather, Geoffrey Bodman, who was a professor at Berkeley (soil sciences) from 1927-1962, which makes this all the more upsetting.

Here are a couple of stories on the recent breaches by Mr. Peevey:

Hi Henry,

Annette and I got a call today from Ray Lutz of Citizen's Oversight [REDACTED] and I am concerned with the threatening tone towards us.

He said that if we don't pull out of the Peevey tribute this week (as a beneficiary of the event) that we will "feel the pressure". Other comments:

- if the dean does not call me back today, I will tell the press at our protest at this event that he did not call me back today

- who are the attendees?
- he described the allegations of this "criminal"
- we are receiving tainted money
- he wants us to pull out of the event and that is our "only option"
- he will have many people call us many times

Henry is speaking with Ray right now.

Already just after he hung up we got calls from Tara Sheevey [REDACTED] and Bruce Campbell [REDACTED]. [REDACTED] Bruce wants a call back from a decision maker about our attendance with the tribute. Then [REDACTED] Patricia Borchmann called from San Diego to "remind the Goldman School Center not to accept money from this event".

Unfortunately, you are now the target of a phone campaign. There is not much to do unless you want to acquiesce and pull out of the event, which I do not recommend. I'm sure there will be protesters at the event, but it is not our event. I would not make a statement unless you plan to pull out.

Sounds appropriate to me. Am just getting up to speed-including looking at the SacBee story and it seems clear at this point it is not Our Event and our folks should not be in the position of seeking to explain this.

Janet,

The attachment I sent earlier had the basics, but I spoke with Annette directly (510-642-8005) to fill in the blanks. You can either call her directly, or call me.

It may be best to refer certain media calls about the event itself to Susan Kennedy.

Hi Claire,

I have been getting many phone calls on the Peevey tribute today, mostly people who want to persuade the school not to be a part of the tribute.

Henry called one person back (Ray Lutz of Citizens Oversight), but we got one call from Michael Aguirre, [REDACTED] an attorney in San Diego, who asked the Dean to call him back. Perhaps it's this Mike Aguirre?:

http://en.wikipedia.org/wiki/Mike_Aguirre

Do you have any advice on how to proceed without overloading Henry will call backs, which was Ray Lutz's stated intent?

Very best,

I'm conferring with government relations. We can talk tomorrow morning.

Are you in a position to rescind participation? Peevey is an alum, and he's married to an important alumna to us too.

How did you get involved in this? Why is GSSP the recipient of any additional funds not used for the event? Where is Kennedy? Is she being called as well? What is she saying to media and others? What is their strategy to manage the protest the evening of the event? Will they take the lead, as they should, on managing media that evening? Who from GSPP will attend?

Claire-- Peevey has been on our board of advisors for 6+ years. He and Senator Liu are both significant donors to UCB and the Goldman School (they each have a named chair in Economics and GSE respectively). Several years ago Peevey and Dan Kammen were both honored at an event where we were Peevey's guests (commonwealth club if my memory serves). He is committed to sustainable energy.

Peevey once worked at UCB at the Labor Center. He is being honored at the tribute dinner by major political figures (eg Willie Brown) for the totality of his contributions to the public good.

I do not believe Dean Brady is inclined to withdraw. He and I will attend.

You could best address your questions as to how the organizers are handling the media attention to Susan Kennedy who I imagine is known to Chris Treadway.

Thanks very much for bringing your expertise to bear on this development.

For the Good of the University of California Berkeley

Greetings: The good name of the Goldman School of Public Policy specifically and the University of California Berkeley generally are being tarnished by GSSP endorsement of and association with Michael Peevey, the disgraced former President of the California Public Utilities Commission. Peevey's actions are inconsistent with the most fundamental principle upon which effective public policy rests, integrity. Instead of careful development of data, precise evaluation of options, and persuasive methods of implementation Peevey stands publicly for manipulation and strong arm tactics. He does not believe nor does he feign to even practice public

policy based on reason and the public good.

While at the California Public Utilities Commission, Peevey engaged in personal corruption but he also corrupted those around him and the system within which he worked. Peevey has spread the contagion of corruption to GSPP by making it appear that GSPP is standing up and speaking up for him in the face of overwhelming evidence he disgraced the office of President of the California Public Utilities Commission. Under Peevey the CPUC covered-up investigations into three horrific safety accidents caused by California's major public utilities, the 2007 SDG&E equipment-caused fires in San Diego, the 2010 PG&E gas line explosion in San Bruno, and the 2010 Edison steam generator failures at San Onofre. In all three cases under Peevey the safety investigations were obstructed, blocked, or misdirected. Peevey held secret meetings in violation of the open meeting laws, withheld public documents from the public in violation of the open meeting and public access laws. Peevey held improper meetings here and abroad where he conducted public business outside of public scrutiny and without the benefit of public policy analysis.

GSPP is challenged with the burden of transforming smart, dedicated, service-minded women and men into public policy leaders. You have a unique mandate to ensure that GSPP's teaching, research and programs are of the highest caliber and that the public benefits from the leadership and knowledge

created at GSPP. Michael Peevey is a threat to your core mission of creating leaders who are committed to the common good and who have the skills to put that commitment into practice because he is corrupted of people of and of systems. This is the time for GSPP to support CPUC reform not its former discredit head. Please watch the video and ask yourself if Mr. Peevey engaged in the type of behavior with which you want GSPP to be associated.

<http://www.utsandiego.com/news/2014/may/21/utilities-commissioner-cusses-out-mike-aguirre/>

What sparked Peevey to lose it was a question about whether he had concocted a secret deal with Southern California Edison to stop the investigation into whether Edison has acted unreasonably in deploying the defective steam generators at San Onofre that caused the plant to shut down and burden ratepayers with \$5 billion in charges for electricity they will never receive. The inventory from a search warrant executed on Peevey last week showed notes from such a secret meeting Peevey had with Edison Senior Vice President and General Counsel Stephen Pickett at the Hotel Bristol in Warsaw, Poland. (See related LA Times story) <http://www.latimes.com/business/la-fi-puc-scandal-20150210-story.html>) News reports about the notes being ceased prompted Edison to disclose the meeting 2 years after they were required to report it. Peevey failed to provide the notes due under public information requests.

We need GSPP to help restore our state and nation to centers of justice and moral leadership, not systems of corruption. Berkeley is an important part of America but it also an important part of the world because it has stood up for social justice, it has been a source of moral leadership. Our best students across the state are voting to divest from America. They have grown tired of those at the highest levels engaging in the lowest conduct. They do not want public service to be just another opportunity for private profit.

Please do not be misled by the lure of big money. Disassociate yourself from the effort to use GSPP good name to prop up Mr. Peevey. One of our greatest public policy leaders of all times. Dr. Martin Luther King Jr., said non-cooperation with evil is as much a moral duty as cooperation with good. Please make it known that Peevey's money cannot buy the good name of the Goldman School of Public Policy.

Thank You,

Michael J. Aguirre

Dear Mr. Aguirre:

Thank you for your thoughts about Mike Peevey. Mr. Peevey has been a long-time board member of the Goldman School.

As a lawyer you know that someone is innocent until proven guilty. While I respect your opinions, they appear to be based upon a very quick set of jumps from news stories, to accusations, to guilt, to assertions of "evil."

Very best regards, Henry E. Brady

Public Policy School fund raising

It is a total shame that people feel it is necessary to raise funds for your school by honoring the likes of Michael Peevey who has totally trashed the credibility of the California PUC!

Thank god he is no longer with the Commission and is under investigation! It appears the need for money welcomes even tainted money! Are we to expect a news release distancing the School from this fund raising effort which is a slap in the face to all California consumers and taxpayers? I seriously doubt it! There is no honor in this sordid affair!

Dean Brady,

As an alum (2007) and a former legislative staffer to the Assembly Budget Committee, where we were sought to hold Mr. Peevey accountable for his cozy and inappropriate relationship with PG&E, I'm very disappointing to hear that he will be receiving an award at a GSPP fundraiser.

Mr. Peevy, is it widely acknowledged in the Capitol, held on to his position for as long as he did only because he had the support of the governor and because his wife was a state senator, and not because he was a public servant who put the interests of Californian's first.

While I recognize that time is short, I hope GSPP will reconsider commending Mr. Peevey for his service.

Sincerely,
Sasha Horwitz

Thanks for your e-mail. GSPP is not the organizer of the event, nor are we giving him an award. I did, however, lend my name to the list of organizers (because Michael is a long-time GSPP board member) and GSPP is receiving any left-over funds from the event this evening.

Very best, Henry Brady

Thank you for your call this morning. I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Please let me know if there is anything else you need.

Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

THANKS. I AM SENDING OUT THE FOLLOWING TO PEOPLE:

There are lots of misconceptions and false rumors about tonight's Mike Peevey event.

Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,
Susan Kennedy

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

Well, I would certainly seek to put what she wrote in play, by whatever means seem appropriate. If she has, in fact, spoken to media, there should be something soon, if not now, that you could link to. So, might be worth asking her who she has spoken/responded to in the press.

Dean Brady,

As a 2002 GSPP Alumna, I was very troubled by this morning's Chronicle article about tonight's GSPP fundraiser honoring Michael Peevey. If the story in the paper is accurate, it is disappointing to learn that my alma mater is allowing its sterling reputation to be leveraged to burnish the image of a top public official who is under criminal investigation.

While your quote in the paper suggests that Peevey is simply under fire as "a public servant who has taken on tough issues," he is in fact under investigation by state law enforcement for judge shopping, bribery, and other ethical lapses in his role as the lead utility regulator in California. The decision to honor him is damaging to the reputation of GSPP, and is not consistent with our charge to "Speak Truth to Power".

Dean Brady,

As a University of California, Berkeley alumnus, I write asking why your school would be affiliated with an event honoring former California Public Utilities Commission (CPUC) president Michael Peevey. He is at the center of multiple, converging scandals surrounding the natural gas explosion in San Bruno that killed eight of my constituents and the shutdown of the San Onofre nuclear plant in Southern California. These scandals have led the state's Attorney General to raid his home in La Cañada/Flintridge and caused the U.S. attorney's office to open an investigation into his potentially illegal actions.

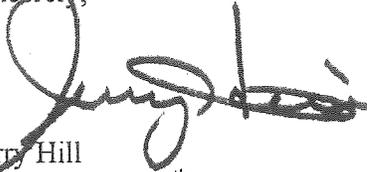

Accepting money from an event honoring Michael Peevey sends the wrong message to your students and alumni. How would it look should the entities donating money or purchasing tables at the fundraising event end up being the very utilities that have coopted the CPUC under Peevey's watch, allegedly through improper means?

You may not be aware of the extent to which Peevey has forfeited the public trust. Since the 2010 explosion in San Bruno, more than 30 editorials from newspapers around the state heavily criticized the CPUC under Peevey, including more than 15 that have called for his resignation or removal. These editorials were published even before emails emerged that suggest that Peevey traded ratepayer money for contributions to ballot campaigns and the non-profit foundation he controlled.

During the past few days I have become aware that other graduate level public policy programs in California have decided to use Michael Peevey's tenure at the CPUC and this Goldman School event as a case study in ethics classes. I understand the school's fundraising needs, but it strikes me as inappropriate that a school of Goldman's caliber would host an event honoring the CPUC president whose indifference to utility operations contributed to the San Bruno explosion, whose inattention to administrative function left the CPUC the most audited agency in state government, and whose disregard for ethics laws and due process has left him under investigation by state and federal authorities.

Michael Peevey's actions as president of the CPUC have caused Californians to lose trust in the agency, whose mission is to protect consumers. The Goldman School's participation in this event could lead to a further erosion of trust in California's public institutions.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Hill". The signature is fluid and cursive, with a large initial "J" and "H".

Jerry Hill
State Senator, 13th Senate District

Dear Senator Hill:

We are not organizing this event. I have inserted statements below from the organizers of this event about its provenance and purpose.

Henry E. Brady
Dean, Goldman School of Public Policy

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,
Susan Kennedy

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

Here's the letter from Senator Hill.

Very best, Henry Brady

PS. Senator Hill was the person quoted in the Chronicle this morning who said that he had talked with the Goldman School when he hadn't so he seems intent on making this an issue even if he has to stretch the truth. Also, San Bruno is in his district so that he has a constituency that has been very upset about the CPUC.

Dear Mr. Brady,

As a San Clemente resident who is still subject to the residual effects of poor regulatory oversight and cozy relationships between the state's Public Utilities Commission and the industry, I find it shameful that UC Berkeley would 'honor' a man like former state Public Utilities Commission President Michael Peevey, who is at the center of this and other state utility scandals. I am sure that there are many other distinguished individuals that are truly deserving this level of recognition. Please cancel the event.

Your Story this Morning in the Chronicle

1 message

Dear Mr. Dineen:

I was sorry to see that your article this morning perpetuated errors and mistakes in the *Chronicle's* coverage of the Mike Peevey event. The Goldman School of Public Policy did not organize the event, as I said to a Chronicle reporter the other day.

Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

*Regards,
Susan Kennedy*

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

I hope that the *Chronicle* can print a correction to your article. In addition, it is easy to reach me and it would have been courteous and good reporting practice to have talked with me to confirm that you had the story right.

Mr. Brady,

It's a very bad idea to honor Mr. Peevey for a lifetime of service at this time, while he is under investigation for the corruption between government and big business.

PS. Senator Hill was the person quoted in the Chronicle this morning who said that he had talked with the Goldman School when he hadn't so he seems intent on making this an issue even if he has to stretch the truth. Also, San Bruno is in his district so that he has a constituency that has been very upset about the CPUC.

Have you or anyone on your staff responded to Senator Hill's letter? Senator Leno was interviewed on the radio yesterday evening and an SF Business Times article was published this morning where he was asked about Goldman's role in the reception. I sent the note below to Senator Leno's chief of staff and press secretary to clarify the confusion Senator Hill's letter caused.

If you plan to respond to Senator Hill, could you please send me a copy?

Dear Ms. Colfi:

Thank you for your e-mail but there are lots of misconceptions and false rumors about the Mike Peevey event.

We did not organize the event. Here are statements from the two organizers of this event about the provenance and purpose of this event:

*Dean Brady,**I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.**Regards,
Susan Kennedy*

This is from an e-mail cc'ed to me from Don Solem, another organizer:

*I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.**Thanks, Don [Solem]*

Adrian:

That's fine. By the way, I do agree that this would be an interesting case study in ethics as suggested in Senator Hill's letter – but ethics also requires a consideration of decency, loyalty, and presumptions of innocence. Hence, while Senator Hill seems to think that such a case would necessarily be damning to us, I'm not sure that is true. Indeed, the reason it would be a good case is that it is complex and the simple reflex response of "run away from people who are under investigation" needs to be balanced with many other important considerations. In fact, one of the lessons might be that the world is complex, people are complex, and you have to learn to live with that complexity and ambiguity. But perhaps most importantly, decency and fairness are sometimes costly but worth it in the long run.

Very best, Henry Brady

PS. I'm off on a business trip to New Zealand tonight. I'll be on e-mail episodically, and I return Sunday night February 22nd.

The gala dinner at the Merchant Exchange for Michael Peevey suggests a new low for California politics. Criminal behavior has become so normative at higher levels of business and government that there is no shame in celebrating those who get away with it. It is no surprise that one of the organizers was Susan Kennedy, PG&E lobbyist and Chief of Staff for former governor Arnold Schwarzenegger. It is a surprise that the Goldman School of Public Policy at UCB sullied its reputation in order to profit from the event. Perhaps the Dean at the Goldman School should take graduate seminar 280: Ethics, Policy, and the Power of Ideas. The course description asks, "What does it mean to do the right thing?"

I hope you know this was (mostly) tongue-in-cheek--well the veggie and chicken part. Seriously, I think it's a great question to pose: When does a public institution have to dissociate itself (return unsolicited donations?) from a public figure who is not convicted of anything (but who is under investigation or getting very negative press).

Dear Faculty and Staff:

There are lots of misconceptions and false rumors about tonight's Mike Peevey event.

I thought that all of you should see this statement from one of the organizers, Susan Kennedy, about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,
Susan Kennedy

Dean Brady – I am GSPP graduate (MPP 1986) and am currently serving as the Acting Chief Administrative Law Judge at the California Public Utilities Commission. You and I have met several times, beginning during my graduate studies and continuing through recent years. I have great respect for you, for the Goldman School and for its mission.

I have known Michael Peevey since the late 1990s, before he was a Commissioner at the CPUC. I am well-aware of the current controversy surrounding his actions at the CPUC, as well as issues regarding a recent event where it has been reported that Mr. Peevey would donate funds to GSPP. (I was not invited and did not attend.)

I believe I can provide some unique insight regarding Mr. Peevey which might be helpful to you as you consider the ongoing relationship between Mr. Peevey and the school. I would be happy to speak with or meet with you at any time; in addition I offer any other services I can provide to the school consistent with my job at the CPUC.

I can be reached at [REDACTED] I look forward to hearing from you.

PLEASE DO NOT FORWARD THIS E-MAIL – IT IS JUST FOR OUR PRIVATE CONVERSATION

Steve: I actually agree with you. There are also these questions:

-- What does decency and loyalty require in these situations? It is easy to be "holier than thou" with respect to these issues – any many people who have e-mailed me have said that Berkeley should simply not associate with certain people, but what does decency require? In addition, Michael Peevey has, in fact, accomplished a great deal and he is the kind of successful public servant that we hope our students become.

-- Is there a difference between people who have been accused (convicted) of taking money versus people who are accused of violating transparency laws?

-- Indeed, the bigger question is: Do transparency laws serve the public weal or often make it impossible to say things that can only be said in private?

-- What are public institutions supposed to do when (a) their budgets are cut because they are told that they should raise funds on their own, and they are not allowed to charge tuition, but at the same time they have to meet a higher standard than similar private institutions (e.g., consider this case, consider the issue of "legacies" which we do not have at Cal, consider the quid pro quo nature of some private donations to private universities, etc.)

And so forth.

Very best, Henry Brady

I have many reactions, but one simple one is this: How would the Mercury News suggest I implement their policy? Should I let them decide who can and who cannot give us money based upon their apparent assurances about the outcome of this situation? Would they be willing to spend the time and money to vet each and every donor according to their lights?

I am returning to Berkeley on Sunday, February 22nd.

It is somewhat difficult for me to believe that the dean would be more steamed at us than the Sacramento Bee! Perhaps he hadn't read that coverage yet.

You may certainly give him my office number (below) or my cell . However, I probably cannot return calls today. 

I have also cc'd my assistant, Christina, who can work with you on a time to visit the newsroom. If you would like, I could ask her to suggest a few times. I'd love for you to meet my top leadership team and, if you wish, the publisher. Our morning digital meetings are at 9:30 a.m.; afternoon print-focused meetings

are held at 2:30, if you wish to attend those.

Subject: Diplomatic outreach

Dear Audrey,

My friend and colleague, Henry Brady, who's dean of the Goldman School of Public Policy, came to a meeting this morning steamed about the Chronicle's coverage of a dinner last night in SF that the School was peripherally involved in. He complained that the story misstated the extent of the School's relationship, causing some needless embarrassment, and I think he had other concerns.

I know nothing about the story, [REDACTED] but I am concerned when I hear anybody say they don't know how or whether to take their complaints about the media to the people who should hear them.

So could I ask you to give him a call? He's somebody you should know anyway, since Goldman is a terrific place that brings a lot of newsmakers to town, and Henry's one of Cal's most effective leaders. His direct line is [REDACTED] If you prefer he call you, please give me a number.

Thanks very much. And let's set a date (perhaps the first week of March) when I could come by and visit your newsroom.

Warm regards,

Ed

Dean Brady:

Thank you for the return call. Given the distance and difficulty of calling halfway around the world, I'll try to articulate my thoughts in writing here.

In many ways, I agree with the defenders of Mr. Peevey: He has been a long-time effective advocate for clean energy, his strong leadership brought California out of a deeply damaging energy "crisis" in the early 2000s, and (as Governor Brown said) he "gets things done." I many times told my (often skeptical) colleagues at the CPUC that Mr. Peevey had a rare ability to both understand the need to balance environmental, reliability and financial stability objectives, and the force of personality to achieve these objectives in a way that was often (but not always) perceived as fair. He is a man of vision and a shrewd operator who knew how to wield power effectively.

It was, however, the combination of shrewdness and power that proved to be his Achilles heal. Never a humble man, Mr. Peevey in my opinion grew arrogant over time and saw his role more as "benevolent dictator" than as consensus builder. As you know, there really is no such thing as a "benevolent dictator," whether one agrees with this person's vision of the public interest, no one person should be given such power without checks and balances. Essentially, Mr. Peevey determined that his views of the public interest were, in fact, the public interest, and he had the ability and will to implement these views. This is a recipe for corruption and not surprisingly led to a disregard of fair process, a lack of concern of public perception, a cast of sycophants, and an air of untouchability. In this light, it is not surprising that, in our pluralistic society with a freewheeling media (and a set of laws and rules which are supposed to be binding), Mr. Peevey has fallen from grace. His vision, talents and stature notwithstanding, this was inevitable.

As Chief Judge at the CPUC, I have observed this drama up close. I know all of the participants in the "judge-shopping" and "ex parte rules" controversies (whether by good fortune or my ethics, I am untouched by any hint of scandal!). My organization is badly damaged by these events. I personally am working with the new CPUC President (Michael Picker) to both articulate a new vision of ethical behavior and to institute culture change, rule/law changes and CPUC sanctions for wrong-doing both internally and externally (investigations of criminality are of course handled by law enforcement agencies). This process is wrenching, time-consuming and somewhat Sisyphian (i.e, we will never be perfect).

Regarding Mr. Peevey and the Goldman School, I fully understand why the long-standing relationship between the School and Mr. Peevey is important and should not be lightly tossed away. Mr. Peevey surely has been an excellent source of funds, beneficial relationships and intellectual leadership. I am certain that other Advisory Board members would be wary and concerned if the Goldman School (or you as its representative) were to distance from Mr. Peevey. And fairness calls for "innocent until proven guilty."

In the longer view, I believe the Goldman School's reputation as a top-ranked institute of learning and training of policy analysts must rest upon a set of principles that include not only superb academics and research, but also ethics. Mr. Peevey lost his way regarding ethical behavior. I know from direct observation -- as now clearly evidenced in public e-mails -- that he and his direct reports did not act ethically in many instances (and not all have become public). It is my opinion that Mr. Peevey and others stand a good chance of being indicted, and the legal process will play itself out. Yet, there is enough information already available to definitively prove that he has been unethical.

I was taught to "Speak Truth to Power." I have tried to do so in my career; it is difficult and I have not always succeeded. This is an opportunity for the Goldman School to "Speak Truth to Power." It will be difficult, but you must succeed for the good of the institution. Please do not accept money from Mr. Peevey at this time -- perhaps he can choose not to donate funds from his recent tribute. Please consider easing Mr. Peevey off of

the Advisory Board. Yes, all public servants are subject to criticism -- please know that this has gone far beyond that, to the point of no return. There are many examples of effective, visionary, ethical public servants who are would better represent the Goldman School. Surely the School can find other people who can provide the positive attributes of Mr. Peevey.

Thank you for reading this note and considering my views. Again, I am available to talk further. If you would like to reach me while you are in New Zealand (or after your return), best times are generally 10 am to 5 pm my time at 510-414-0189. I would also be interested in meeting with you after you return. Best of luck in your endeavors in the Southern Hemisphere.

The UC-Berkeley Goldman School of Public Policy Should Reject Any Money from Ex-CPUC President Michael Peevey's fundraiser this evening as he personally spearheaded the worst decade of corruption in modern California history by illegally colluding with Pacific Gas & Electric Company, contributing to the death of 8 San Bruno residents and billions of dollars in rate hikes for ratepayers. The good news is the event may mostly be attended by federal and state law enforcement agents who are investigating his illegal actions. I hope they arrest Peevey and his cronies at the event in front of his 'friends' and the public.

I just tried using my wife's phone to call you and I think I got through and left a message. But her phone is off most of the time to avoid heavy "roaming" charges.

If you could give some times when I might call you (remembering that New Zealand is three hours earlier and on the next day -- right now it is 4:49pm on SUNDAY in New Zealand but it is 7:49 on SATURDAY in Berkeley.)

Hi Ms. Marshman,

I didn't recall reading about this in the Merc. I found that it was widely reported in the Bee and Chron though. Those papers give credit to a San Diego paper for first reporting it on 1/30/15. I agree with the thought, but why wait until the Monday after the Thursday event to complain?

Why just go after the Goldman School? Why not go after Michael Picker, Willie Brown and some of the other well-connected-others too?

And since it is after-the-fact, why not report on who attended and what they wore?

Henry,

I thought your reaction to the Peevey matter was entirely appropriate. I've been on both sides of matters like that, having both taken cheap shots and been the victim of them. My feeling is that it's an opportunity to get on good terms with Audrey Cooper, which can't hurt Goldman or her.

Thanks for the note.

Dear Audrey,

My friend and colleague, Henry Brady, who's dean of the Goldman School of Public Policy, came to a meeting this morning steamed about the Chronicle's coverage of a dinner last night in SF that the School

was peripherally involved in. He complained that the story misstated the extent of the School's relationship, causing some needless embarrassment, and I think he had other concerns.

I know nothing about the story, [REDACTED] but I am concerned when I hear anybody say they don't know how or whether to take their complaints about the media to the people who should hear them.

So could I ask you to give him a call? He's somebody you should know anyway, since Goldman is a terrific place that brings a lot of newsmakers to town, and Henry's one of Cal's most effective leaders. His direct line is [REDACTED] If you prefer he call you, please give me a number.

Thanks very much. And let's set a date (perhaps the first week of March) when I could come by and visit your newsroom.

Warm regards,

Ed

Here's the text of the editorial, in case you couldn't open the link:

It's worse than inexplicable that the UC Berkeley Goldman School of Public Policy would associate itself with, let alone benefit from, an event honoring former state Public Utilities Commission President Michael Peevey.

In fact, it is shameful.

Henry Brady, the school's dean, noted last week that Peevey had a long record of public service and the school liked to honor "public servants who have taken on tough issues."

Yes, the 76-year-old Peevey is widely and correctly credited with promoting green energy and helping steer California out of an energy crisis.

But a less noble portrait of Peevey has emerged as the media spotlight has focused on the commission after the disastrous September 2010 explosion of a Pacific, Gas and Electric Co. natural gas pipeline in San Bruno. Peevey's coziness with the utility, as underscored in a trove of recently released e-mails, is at best unseemly and an affront to the public that counts on the commission as a watchdog over rates and safety.

And the story of Peevey's "public service" is far from complete.

State agents searched Peevey's Los Angeles County home last month looking for evidence of bribery, influence peddling and other felony conduct at the state PUC.

"Accepting money from an event honoring Michael Peevey sends the wrong message to your students and alumni," state Sen. Jerry Hill, a San Mateo Democrat who has been pushing to reform the commission, wrote to Brady about the \$250-a-plate fundraiser.

It suggests the school is either out of touch with what is happening in the real world, oblivious to the concept of "good public policy," or so desperate for money that it doesn't mind being used by people who are determined to alter the narrative of a former regulator who is under fire.

Dear Mr. Celaya:

Thank you for your e-mail but there are lots of misconceptions and false rumors about the Mike Peevey event.

We did not organize the event. Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

*Regards,
Susan Kennedy*

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

I hope that is helpful.

Very best,

Henry E. Brady

Hi Henry: I understand that you are traveling this week and not available for a phone call. We just wanted to let you know that the editorial about the Peevey event came up during the Foundation's executive committee meeting on February 13. A couple of the Trustees had seen it in the L.A. Times and the Contra Costa Times, though most were not aware of it. Claude Steele was also at the meeting and heard about it there. If you have not already done so, it might be a good idea for you to make sure that Claude is aware of the situation. As you have probably already heard, Government Affairs asked for our guidance regarding the gift aspect. We advised them that there is no precedent for declining or returning funds in this kind of situation. If there is anything else we can do to help, don't hesitate to let us know. Thanks and safe travels home.

For your information see below. I will send an e-mail to Claude Steele telling him that I will brief him when I get back.

Also, on what we discussed yesterday. I've been thinking about what a reply would look like but I don't think it would do anything but reignite things. The truth is that the people who wrote editorials chose to ignore the facts and to construe them the way they wanted to understand them—even if they had them wrong. They don't care about the facts. Hence, we would be put in the position of correcting the record on facts that they think are irrelevant to the issue. That would leave us to defend ourselves based upon the grounds that they have chosen which is Peevey's ethics.

So I think our best course of action is to simply grin and bear it and to leave it the way it is.

My guess is that most of the storm has passed.

Thanks for your help on all this, I have appreciated your efforts and thoughtfulness.

Very best, Henry Brady

I've been working all along with Claire Holmes on this so that I am surprised that Claude was unaware, but I'll send him an e-mail saying that I will brief him when I return. Unfortunately, the crucial fact is that we were the victim of events that developed very quickly so that I had to make decisions about whether to abandon a long-time supporter of the school and Cal or to join a chorus of self-righteous indignation about him. I chose loyalty over self-serving indignation. I think that was the right choice given that Peevey is only under investigation.

That's fine. By the way, I do agree that this would be an interesting case study in ethics as suggested in Senator Hill's letter -- but ethics also requires a consideration of decency, loyalty, and presumptions of innocence. Hence, while Senator Hill seems to think that such a case would necessarily be damning to us, I'm not sure that is true. Indeed, the reason it would be a good case is that it is complex and the simple reflex response of "run away from people who are under investigation" needs to be balanced with many other important considerations. In fact, one of the lessons might be that the world is complex, people are complex, and you have to learn to live with that complexity and ambiguity. But perhaps most importantly, decency and fairness are sometimes costly but worth it in the long run.

Dear Senator Hill:

We are not organizing this event. I have inserted statements below from the organizers of this event about its provenance and purpose.

Henry E. Brady
Dean, Goldman School of Public Policy

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,
Susan Kennedy

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

Some of us consider being excoriated by the SF Chronicle a badge of honor. The contrast in the way that the Boston Globe reports and editorializes on MIT and Harvard compared with the Chronicle and UC Berkeley is simply shocking.

On Tue, Feb 17, 2015 at 10:27 AM, David KIRP <kirp@berkeley.edu> wrote:
Here's the text of the editorial, in case you couldn't open the link:

It's worse than inexplicable that the UC Berkeley Goldman School of Public Policy would associate itself with, let alone benefit from, an event honoring former state Public Utilities Commission President Michael Peevey.

In fact, it is shameful.

Henry Brady, the school's dean, noted last week that Peevey had a long record of public service and the school liked to honor "public servants who have taken on tough issues."

Yes, the 76-year-old Peevey is widely and correctly credited with promoting green energy and helping steer California out of an energy crisis.

But a less noble portrait of Peevey has emerged as the media spotlight has focused on the commission after the disastrous September 2010 explosion of a Pacific, Gas and Electric Co. natural gas pipeline in San Bruno. Peevey's coziness with the utility, as underscored in a trove of recently released e-mails, is at best unseemly and an affront to the public that counts on the commission as a watchdog over rates and safety.

And the story of Peevey's "public service" is far from complete.

State agents searched Peevey's Los Angeles County home last month looking for evidence of bribery, influence peddling and other felony conduct at the state PUC.

"Accepting money from an event honoring Michael Peevey sends the wrong message to your students and alumni," state Sen. Jerry Hill, a San Mateo Democrat who has been pushing to reform the commission, wrote to Brady about the \$250-a-plate fundraiser.

It suggests the school is either out of touch with what is happening in the real world, oblivious to the concept of "good public policy," or so desperate for money that it doesn't mind being used by people who are determined to alter the narrative of a former regulator who is under fire.

Henry--

Below is language Bora and I developed last week in case you wanted to go ahead and ask Birgeneau to write a letter to the Chronicle on our behalf. It might prove useful in future conversations...

I was dismayed to read the Chronicle's Feb 17 op-ed that used the occasion of a retirement dinner for Michael Peevey, former head of the California Public Utility Commission, to tarnish the reputation of the Goldman School of Public Policy.

The event in question was a private dinner, put on by friends of Michael Peevey to honor proven record of commitment sustainable energy. The event was not designed as a fundraiser. The organizers offered to donate any funds left over and above the cost of the event -- should there be such funds -- to the Goldman School. Benefiting the Goldman School was not the reason for the dinner, nor the motivation for the school's participation.

The ethical issues raised in the investigation of Michael Peevey are deeply troubling and to be taken with the utmost seriousness. But implying that Dean Henry E. Brady and the Goldman School should play judge and jury and dissociate itself from a board member in good standing circumvents due process. By focussing so much attention on a private dinner of no consequence to the public, the Chronicle distracted from the substantive issues at hand.

I have been pleased to be affiliated with the Goldman School since leaving the Chancellorship of UC Berkeley. I have nothing but deep respect and confidence in the leadership and moral rectitude of Dean Henry E. Brady.

Dear Henry, Lynn, and Annette,

I am a former UC graduate, PG&E employee and customer, and a California citizen that supports the vital role that regulation and ethical regulators play in overseeing utility monopolies for the public good. As such, I am surprised and disappointed that the UC Berkeley Goldman School of Public Policy has chosen to both honor Mr. Peevey and raise money doing it when it is clear that many questions remain regarding both the ethics and legality of Mr. Peevey's role as head of the CPUC.

\$250 a plate is nice fundraising but at what short term and longer term costs to the reputation of such a fine institution?

As a California citizen and tax payer that supports the role of dynamic public education institutions, the UC system being one of them, I would hope for and expect a higher ethical bar. IMHO Peevey and PG&E have violated the public trust and aided in the continued erosion of the public's faith in regulatory oversight. This neither deserves "honoring" or leveraging for fundraising.

Best,
David

Gentlemen,

I would appreciate it if you would print the following letter to the editor in an upcoming issue of the Contra Costa Times. Thank you for your kind consideration of this request.

Michael

Dear Editor,

Your editorial of February 15, 2015 regarding the UC Berkeley's Goldman School of Public Policy accepting a gift from former PUC President Michael Peevey is totally off-base. The University should not be chastised because a benefactor might have committed unethical acts.

Taking your editorial to its logical conclusion, no University should accept money form anyone who might have "crossed ethical lines." If that were the case, many prominent universities, including Stanford, would not exist. Its founder, Leland Stanford, was a noted "robber baron," who "participated in the worst practices of the Gilded Age: stock watering, kickbacks, rebates, bribes, collusion, monopoly," all examples of unethical behavior.

Should Stanford sent back its founder's money and close its doors because Leland was unethical? Should Stanford University be renamed for someone more ethical? The answers to these questions, even from a diehard Cal Bear's fan, is no. That would be ridiculous. And unfortunately, so is your criticism of UC Berkeley accepting money from Peevey's retirement dinner, especially since the money can be used for so many worthwhile purposes.

Claude:

Could we schedule a time to talk about the Peevey event as soon as possible. I'm already getting inquiries from the Chronicle on how much we got from the event. At the moment, I don't know if there was, in fact, any money that we got, but I would like to talk with you about contingencies.

My assistant, Beth McCleary (cc'ed above) can work on a specific time. This is very important so I'll happily push other things out of the way to fit your schedule.

Very best, Henry Brady

Dear Claude:

I've been told that you did not know about the Peevey event and associated controversy.

I've been working all along with Claire Holmes on this. Unfortunately, the crucial fact is that we were the victim of events that developed very quickly (and in a perverse and problematic way) so that I had to make decisions about whether to abandon a long-time supporter of the school and Cal or to join a chorus of self-righteous indignation about him. I chose loyalty over self-serving indignation. I think that was the right choice given that Peevey is only under investigation. I think our Trustees and friends should know that we will not just cut and run on them.

I am traveling right now, and I return Sunday night. I'd be happy to brief you by phone when I return or earlier if absolutely necessary.

Very best, Henry Brady

Hi,

I found this document on the CPUC website. Can you tell me if you have any reservations about accepting money solicited by the new CPUC president? Also, do you have any comment on what it means that the new CPUC president is soliciting money from groups with interests before the commission?

We are not the organizers of this event. Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,

Susan Kennedy

This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

Dear Claire and Dan:

I'm not replying to the following e-mail, but I wanted you to see that this story does not seem to die. As far as I can tell, this is a piece of paper that must be submitted by the PUC when people give money to events that might be relevant to their PUC business. Hence, this just reiterates the story of last week and adds nothing to it except that people have submitted the proper paperwork.

I've also had a call from the Chronicle (yesterday) about how much we got from this event--I was not in my office so I did not reply and I have no intention of talking with them either.

If you have thoughts, please send them along.

Very best, Henry Brady

Hi,

I found this document on the CPUB website. Can you tell me if you have any reservations about accepting money solicited by the new CPUC president? Also, do you have any comment on what it means that the new CPUC president is soliciting money from groups with interests before the commission?

We are not the organizers of this event. Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

I've been told that you did not know about the Peevey event and associated controversy.

I've been working all along with Claire Holmes on this. Unfortunately, the crucial fact is that we were the victim of events that developed very quickly (and in a perverse and problematic way) so that I had to make decisions about whether to abandon a long-time supporter of the school and Cal or to join a chorus of self-righteous indignation about him. I chose loyalty over self-serving indignation. I think that was the right choice given that Peevey is only under investigation. I think our Trustees and friends should know that we will not just cut and run on them.

I am traveling right now, and I return Sunday night. I'd be happy to brief you by phone when I return or earlier if absolutely necessary.

Claude:

February 24, 2015

I just returned to my office and there was a message from an *LA Times* reporter asking what I will be doing with the about \$55,000 from the event. (I don't know if this figure is correct since I haven't talked with the event organizers.) On the advice of Claire Holmes, I have not been responding to such requests. (I've had several others).

To recap:

Issue: A few months ago I indicated that GSPP would be happy to receive any "excess" funds from a tribute dinner for Michael Peevey, former head of the California Public Utilities Commission. After that, a story broke indicating that Mr. Peevey's computers and personal papers had been seized by a state investigative unit. Subsequent stories indicated that he might have been involved in unethical behavior according to state guidelines and even in a "judge shopping" effort on the part of a utility company. There have been no indictments.

Just so you know, Mr. Peevey has been a generous contributor to Cal including a chair in the Economics department, and he has been on my Advisory Board for many years. His wife is State Senator Carol Liu.

Several newspapers have run editorials saying that I should reject the money from the Peevey event. I've enclosed the one from the *SF Chronicle*. The *San Jose Mercury News* and the *Contra Costa Times* also had similar editorials.

Two Specific Issues:

- What should be done about the money?
- How should we deal with Mr. Peevey's position on the GSPP advisory board?

Options with respect to the money:

- (1) Stand pat and take the money and let the storm pass
- (2) Hope that the organizers will see the light and decide to give the proceeds to another charity (and not stand in the way of them doing this if they so desires)
- (3) Openly reject the donation.

Note that GSPP did not organize the event and Mr. Peevey did not organize the event. It was organized by Susan Kennedy (former chief of staff for Governor Schwarzenegger) and Don Solem (a public relations specialist, I think). Just before the event ten days ago I wrote the following to many news reporters which includes e-mails (which I had solicited) from the two organizers:

Dear Media Person:

We [GSPP] are not the organizers of this event. Here are statements from the two organizers of this event about the provenance and purpose of this event:

Dean Henry E. Brady,

[From Susan Kennedy:]

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards, Susan Kennedy

[From Don Solem] This is from an e-mail cc'ed to me from Don Solem, another organizer:

I am co-chair of the dinner. There seems to be a lot of confusion that the University of California is a sponsor of the event. That is untrue. Neither The Goldman School of Public Policy(at UCB) nor the University of California has anything to do with organizing or sponsoring this event. As the invitation says, net proceeds after all expenses have been paid, whatever they are, will be donated to The Goldman School.

Thanks, Don [Solem]

Hence, I believe that we are quite "arms-length" from this event and from Mr. Peevey, but obviously the newspapers see it differently. I also believe that people are innocent until proven guilty, and that loyalty is an important virtue. I have tried to be loyal to Mr. Peevey.

Options with Respect to Mr. Peevey's Position on the Advisory Board

- (1) Stand pat and let the storm pass no matter what
- (2) Be ready to ask him to resign if he is indicted.
- (3) Be ready to ask him to resign if convicted.

It would be great to have some guidance on how you and the Chancellor would like me to handle this. I worry that although the current storm has mostly passed, there are many forces and perhaps events to come that will create a stir.

As I said above, I value loyalty very, very highly and I value "innocent until proven guilty." Still, I would also like to protect the Goldman School and UC Berkeley.

One further thing: President Napolitano will be the speaker at our next Advisory Board Meeting April 16th.

Very best, Henry Brady

Chronicle Editorial

It's worse than inexplicable that the UC Berkeley Goldman School of Public Policy would associate itself with, let alone benefit from, an event honoring former state Public Utilities Commission President Michael Peevey.

In fact, it is shameful.

Henry Brady, the school's dean, noted last week that Peevey had a long record of public service and the school liked to honor "public servants who have taken on tough issues."

Yes, the 76-year-old Peevey is widely and correctly credited with promoting green energy and helping steer California out of an energy crisis.

But a less noble portrait of Peevey has emerged as the media spotlight has focused on the commission after the disastrous September 2010 explosion of a Pacific, Gas and Electric Co. natural gas pipeline in San Bruno. Peevey's coziness with the utility, as underscored in a trove of recently released e-mails, is at best unseemly and an affront to the public that counts on the commission as a watchdog over rates and safety.

And the story of Peevey's "public service" is far from complete.

State agents searched Peevey's Los Angeles County home last month looking for evidence of bribery, influence peddling and other felony conduct at the state PUC.

"Accepting money from an event honoring Michael Peevey sends the wrong message to your students and alumni," state Sen. Jerry Hill, a San Mateo Democrat who has been pushing to reform the commission, wrote to Brady about the \$250-a-plate fundraiser.

It suggests the school is either out of touch with what is happening in the real world, oblivious to the concept of "good public policy," or so desperate for money that it doesn't mind being used by people who are determined to alter the narrative of a former regulator who is under fire.

Following up on our conversation yesterday, I have truly enjoyed my time with the Goldman School. It has been a rewarding experience and I have tried to contribute to the School's success, both in terms of program content and financially. It was in this latter vein that I suggested any net proceeds from the tribute dinner held in San Francisco last month go to the School.

Little did we know this proposal would set off a media frenzy in the Bay Area, bringing unwanted attention to the School and causing you to decline any net proceeds. This sorry episode has led me to question my value to the School going forward. Hence, I am resigning from the board, effective immediately, a decision I know you support.

Sincerely,

Michael R. Peevey

Dear Faculty, Staff, PhD Students, and Board of Advisors:

This has been a great year for the Goldman School and I wanted to thank everyone for their contributions to our success.

We have had many accomplishments:

- Completion of our Program Review with a very positive report from the reviewers and the Academic Senate
- The Percy Tannenbaum Memorial Event and the Planning for the Emeritus Pictures in Room 105
- Successful recruitment of a new faculty member, Sarah Anzia from Stanford
- The appointment of Governor Jennifer Granholm to teach at the Goldman School (along with the Law School)
- A lively and exciting set of 40th Anniversary Events and the associated Alumni Dinner
- "Stop the Clock" week with Governor Granholm, Senator Graham, and our core faculty
- Another great Wildavsky Lecture with David Cutler
- The highest acceptance rate, in recent memory, by prospective students of our offers of admission to the MPP program
- Another highly successful teaching year with our 1st year and 2nd year MPP students
- The appointment of Michael Nacht to the Tom and Alison Schneider Chair
- Highly constructive and successful responses to Operational Excellence by our staff
- A number of highly successful training programs by the Executive and International Programs group
- Tremendous outreach by our faculty in their writings,

lectures, and involvements in local, state, and national government
-- Our PhD students making excellent progress in their programs

And, of course, there has been an extraordinary outpouring of research and writing that continues to make the Goldman School the most productive, innovative, and interesting public policy school in the world!

Most recently, we just got word that the School has authorization for two new faculty slots for next year. In these tough times, this is really great news for the school.

I feel very lucky to be the Dean of school with such devoted and dedicated faculty, staff, students, and advisory board members. Through our joint efforts, I feel that we are moving forward in many exciting and interesting ways.

My thanks to all of you for your extraordinary contributions to our success!

Very best regards and have a great summer,

Henry E. Brady

The California Club, where we are scheduled to meet, has a Lobsterfest on 8/25, with cocktails at 6, dinner at 7. This should work. However, if Henry or Annette is allergic to lobster, let me know; otherwise we will meet at 6ish for a drink, etc. If they leave by 9 PM they will have no problem getting to LAX in 30 minutes.

We're scheduled for 7pm but I'm hoping we could move it up to 6 or 6:30 because the last flight from LAX is 10:25 pm.

Please let me know if either of these times work for you.

Hello Michael,

Henry asked me to contact you about having dinner (or lunch) either down in LA or up in Sacramento. Last time we tried this, Senator Liu's schedule precluded having dinner in LA. August is a good time for him and it may also be a good time for Senator Liu. Annette Doornbos will be joining you as well.

Here are some dates that are good for both Henry and Annette:

1. August 15
2. August 19
3. August 25
4. August 26
5. August 29

Please let me know if any of these dates work for you and Senator Liu.

Here's the text of the editorial, in case you couldn't open the link:

It's worse than inexplicable that the UI's worse than inexplicable that the UC Berkeley Goldman School of Public Policy would associate itself with, let alone benefit from, an event honoring former state Public Utilities Commission President Michael Peevey.

In fact, it is shameful.

Henry Brady, the school's dean, noted last week that Peevey had a long record of public service and the school liked to honor "public servants who have taken on tough issues."

Yes, the 76-year-old Peevey is widely and correctly credited with promoting green energy and helping steer California out of an energy crisis.

But a less noble portrait of Peevey has emerged as the media spotlight has focused on the commission after the disastrous September 2010 explosion of a Pacific, Gas and Electric Co. natural gas pipeline in San Bruno. Peevey's coziness with the utility, as underscored in a trove of recently released e-mails, is at best unseemly and an affront to the public that counts on the commission as a watchdog over rates and safety.

And the story of Peevey's "public service" is far from complete.

State agents searched Peevey's Los Angeles County home last month looking for evidence of bribery, influence peddling and other felony conduct at the state PUC.

"Accepting money from an event honoring Michael Peevey sends the wrong message to your students and alumni," state Sen. Jerry Hill, a San Mateo Democrat who has been pushing to reform the commission, wrote to Brady about the \$250-a-plate fundraiser.

It suggests the school is either out of touch with what is happening in the real world, oblivious to the concept of "good public policy," or so desperate for money that it doesn't mind being used by people who are determined to alter the narrative of a former regulator who is under fire.

Some of us consider being excoriated by the SF Chronicle a badge of honor. The contrast in the way that the Boston Globe reports and editorializes on MIT and Harvard compared with the Chronicle and UC Berkeley is simply shocking.

I appreciate your point.

Still, the Chronicle is an influential paper in CA, read by many lawmakers and alumni, and so the School (and Berkeley) need to develop a shared, and non-defensive, response. Otherwise we risk making things worse

Dean Brady,

As a 2002 GSPP Alumna, I was very troubled by this morning's Chronicle article about tonight's GSPP fundraiser honoring Michael Peevey. If the story in the

paper is accurate, it is disappointing to learn that my alma mater is allowing its sterling reputation to be leveraged to burnish the image of a top public official who is under criminal investigation.

While your quote in the paper suggests that Peevey is simply under fire as "a public servant who has taken on tough issues," he is in fact under investigation by state law enforcement for judge shopping, bribery, and other ethical lapses in his role as the lead utility regulator in California. The decision to honor him is damaging to the reputation of GSPP, and is not consistent with our charge to "Speak Truth to Power".

I am appalled that your school would honor Michael Peevey, who is in great part responsible for the deaths of 8 people and the burning of over 30 houses in the PG&E San Bruno explosion. Further, he tried to cover up his nefarious dealings and even tampered with judicial selections related to this horrible affair. You are tarnishing the Univ. of CA by doing this. Please stop this appalling affair.

Dear Faculty and Staff:

There are lots of misconceptions and false rumors about tonight's Mike Peevey event.

I thought that all of you should see this statement from one of the organizers, Susan Kennedy, about the provenance and purpose of this event:

Dean Brady,

I have responded to several press inquiries about the event tonight and indicated that this dinner was organized by several long time friends of Mike Peevey. It is not a fundraiser and Mike asked simply that any funds remaining after dinner expenses are paid be donated to the Goldman School of Public Policy at UC Berkeley.

Regards,
Susan Kennedy

Hello George,

I contacted the Goldman School of Public Policy (GSPP) and received the attached file with information about Thursday's dinner honoring Mike Peevey's lifetime achievements. The invitation notes that the net proceeds will benefit GSPP, but the school is not organizing or hosting the dinner. It looks like the most appropriate person to ask about the event might be Susan Kennedy, who is leading the event's organization (you can see the long list of event sponsors on the document). Her email is listed on the invite.

I hope that answers your questions. I'm copying this email to Annette Doornbos, assistant dean of external relations and development at GSPP, as well as to Henry Brady, the dean of public policy.

Hi Annette,

I work at the campus media relations office, and I'm pinch-hitting for Kathleen Maclay, who typically covers public policy. I'm following up on a voicemail I just left for you about a Thursday evening fundraiser. George Avalos, a journalist with the Bay Area News Group (San Jose Mercury News, Contra Costa Times, etc.), wants to confirm the details of this event, which he says lists former (controversial) head of the PUC, Michael Peevey, as a guest of honor. I suspect George's questions will center around the choice of Peevey as a speaker given the way the PUC handled its regulation of PG&E.

I've copied this email to Amy Hamaoui, director of public relations, Janet Gilmore, director of strategic communications, and Claire Holmes, AVC of Communications and Public Affairs. Can you provide us with some details about this event? And are you the appropriate contact for media inquiries related to this?

In case you are able to call George back directly, his number is [REDACTED], and his email is gavalos@bayareanewsgroup.com.

Hello Roger,

I'm not particularly knowledgeable about this event, but what I know is that the Goldman School of Public Policy (GSPP) is not organizing or sponsoring this event. My understanding is that Susan Kennedy, former chief of staff for Arnold Schwarzenegger, is heading the organization of this dinner honoring Mike Peevey's achievements over his career. There is apparently a long list of event sponsors, but Kennedy is leading this.

Whatever net proceeds there are from the dinner will be donated to the Goldman School of Public Policy.

I'm copying your email to Henry Brady, dean of public policy, and Annette Doornbos, assistant dean for external relations and development at GSPP.

Subject: Gala celebration for Michael Peevey

Sara, Could you fill me in on the gala event tomorrow at the Merchant Exchange? Stories are floating around that it is sponsored by the Goldman School of Public Policy. Is anyone from the university going and even though it is off campus what is the connection to UCB? Everyone in California knows (LATimes yesterday) that Peevey (former head of the PUC) is now under criminal investigation for illegal collusion with utilities.

Thanks,

Hey ladies,

Just read about the event tonight. What a headache! I hope you weather the storm OK. Real life political drama brought to GSPP! Perhaps this is a case study in action for the students?

Good luck!

Hi Catherine--

Thanks for your message. What a rollercoaster!! The media's insistence on getting salient facts wrong-- ie we did not organize or co-sponsor the event, it was not a fundraiser--we are simply going to get any money above the expenses of Peevey's tribute dinner (and \$250/plate doesn't generate much over and above costs, if any) etc was maddening.

At any rate, Peevey's accomplishments are many and they were all lauded at his dinner. So whatever happens, at least the great things he did and his concern for the environment, workers etc was celebrated.

Hope all is well with you and yours-- been too long since we've chatted!

xx

Annette

Bora:

Thanks for sending this along. Please send me things as you find them. I hope that this will calm down, but this certainly indicates a very strong reaction.

I have many reactions, but one simple one is this: How would the Mercury News suggest I implement their policy? Should I let them decide who can and who cannot give us money based upon their apparent assurances about the outcome of this situation? Would they be willing to spend the time and money to vet each and every donor according to their lights?

Very best, Henry Brady

Hi, Henry and Annette,

You've already seen this, probably, but a web editor for the LA Times community page tweeted it, asking if UCB ever turns down donations.

Just FYI. Let me know if I can be helpful in any way.

Editorial on UC is off base

The Times editorial, "Cal program should return tainted money," regarding the UC Berkeley's Goldman School of Public Policy accepting a gift from former PUC President Michael Peevey is totally off base. The university should not be chastised because a benefactor might have committed unethical acts.

Taking your editorial to its logical conclusion, no university should accept money from anyone who might have "crossed ethical lines." If that were the case, many prominent universities, including Stanford, would not exist. Its founder, Leland Stanford, was a noted robber baron, who participated in the worst practices of the Gilded Age -- stock watering, kickbacks, rebates, bribes, collusion, monopoly -- all examples of unethical behavior.

Should Stanford send back its founder's money and close its doors because Leland was unethical? Should Stanford University be renamed for someone more ethical?

The answers to these questions, even from a die-hard Cal Bear's fan, is "no." That would be ridiculous. And unfortunately, so is your criticism of UC Berkeley accepting money from Peevey's retirement dinner, especially since the money can be used for so many worthwhile purposes.

PRESS RELEASE & MEDIA ADVISORY – FOR IMMEDIATE RELEASE

Peevey Toasters Face Public Scrutiny

Southern California Edison implicates Peevey in Unethical Warsaw Meeting, Violating Rules, Statutes, and Propriety

Attendees of Gala Event Tacitly Endorse Peevey Malfeasance

FEBRUARY 11, 2015 – Citizens' Oversight Projects (COPS) calls on citizens to put pressure on insiders who are planning to attend, sponsor, or accept funds from the planned "Peevey Gala Celebration," scheduled to occur at 6pm, February 12, 2015, at the Merchant Exchange Building in San Francisco. Michael Peevey is ex-president of the California Public Utilities Commission (CPUC).

The official submission by Southern California Edison (SCE) on Monday outlined the improper and unethical meeting in Warsaw, Poland, between SCE and Peevey in 2013, apparently to concoct the bailout of SCE after the failure of the steam generators at the San Onofre Nuclear plant, finally disclosing the meeting 683 days late. The proper investigation of the near nuclear disaster at San Onofre was never completed, instead opting for the bailout settlement that Peevey and SCE executive Pickett likely outlined at this meeting on a Bristol Hotel notepad, confiscated recently in a raid on Peevey's home by the Attorney General's office.

Peevey is also implicated in the San Bruno gas explosion affair, which killed eight people and was to result in a multi-billion dollar penalty, and which was the primary impetus for the raids on the homes of Peevey, former CPUC Executive Director Paul Clannon, and former PG&E executive Brian Cherry.

"There is now no question," said Ray Lutz, of COPS. "People going to the gala event now must decide if they will stand against this sort of abuse, or if they will go along with the obvious power play by Peevey and his cronies."

Lutz said they would like to see the event canceled for lack of attendance.

COPS believes that we must hold public officials up to the highest of standards. Unlike every other state agency, there is no legal review by the Superior Courts of the actions of the CPUC. If they abuse their power, the only option we have as citizens is to make sure they leave their office in disgrace, and not toasted as heroes.

COPS plans to hold a press conference and "Prosecute Peevey" rally outside the event starting at 5pm on the 12th.

Lutz said he called the Henry Brady, Dean of The Goldman School of Public Policy at UC Berkeley, a sponsor and recipient of any surplus monies generated by the \$250 a plate affair. They do this in exchange for lending their untarnished name to the event. Lutz asked Brady not to accept money from the event and to pull their sponsorship. But Brady refused, saying he could see no conflict of interest. Since then, dean's office was swamped with 100s of phone calls, emails, and faxes, with no letup in sight.

"With the clear impropriety now outlined in writing by SCE, the support of this event by this UC school of public policy is beyond comprehension. I think Mr. Brady should retake Ethics 101, and the decision to support the gala event should be reviewed by Public Policy students, and also by the UC board of regents."

Lutz said the COPS activist network is relentless, and will go to the various donors of the school to make sure they are aware of the unethical support of this event by the school, and to pull future donations. It will become far too expensive to continue to support malfeasance than it will for the college to take the high road and distance itself from Peevey. If any members of the public wish to express their displeasure with the Goldman School of Public Policy at UC Berkeley, they can call the office at [510-642-5116](tel:510-642-5116).

"We will be documenting every person, organization, and elected official who attends this event and we will make sure the information comes to light, so their donors, benefactors, and voters know they are continuing to support unethical malfeasance and abuse of power. We as citizens must use our power to stop such waste, fraud and abuse through civic engagement, the mission of COPS."

MEDIA ADVISORY:

WHAT: "Prosecute Peevey" Protest and Press Conference – to encourage the continued investigation into the malfeasance of Micheal Peevey when he served as head of the CPUC.

WHERE: Merchant's Exchange Building, 465 California, San Francisco, CA 94104 (near corner of California and Montgomery)

WHEN: 5pm, February 12, 2015

WHO: Anyone can attend! Bring signs and loud voices! Definitely anyone in these groups:

Hello,

I would like to rsvp for Both Dean Henry Brady and Annette Doornbos. however the suggested donations would be very slow and may not arrive by the requested method in time for the event. Getting a check from UCB is a formidable and very long process.

May we please pay by credit card?

HiAnnette.

If I had a nickle every time there was a vendor payment
issue.....Apparently in order to add the Mike Peevey event as a UCB
vendor that can receive a check, a vendor request form is necessary
and it takes 4 weeks to be added to our vendor list.

So I wonder if I can just ask Henry to write a check and get him
reimbursed?

Any thoughts on this. Crazy system here. I dont understand why we
cant just have credit cards and get reimbursed like normal people...

Dear Mike-

Thank you for inviting Dean Brady and me to your tribute dinner and for asking that the proceeds go to GSPP. We appreciate your thinking of GSPP and are very much looking forward to the dinner and program.

The UCB Foundation Trustees are meeting in LA on Thursday Feb 26 and Friday the 27th. You will soon get an invitation for a UCB program and cocktail reception for So Cal alumni at 4:30 on the 26th at *Shutters* that will include a presentation by Profs Dan Kammen and Sol Hsiang. I hope you and the Senator will be able to attend the program and the subsequent mixer.

Dean Brady and I plan to be in LA the early evening of Wednesday, February 25th. Would you and Senator Liu be available and amenable to having dinner with us?

We could also get together for breakfast on the 26th if that is more convenient.

warm regards,

Sorry. We will be in Hawaii February 19-27. Happy to get together another time. Dinner in Sacramento works sometime in March, or even in Bay Area. My best.

Subject: Getting together in LA on Feb 25th

Dear Mike-

Thank you for inviting Dean Brady and me to your tribute dinner and for asking that the proceeds go to GSPP. We appreciate your thinking of GSPP and are very much looking forward to the dinner and program.

The UCB Foundation Trustees are meeting in LA on Thursday Feb 26 and Friday the 27th. You will soon get an invitation for a UCB program and cocktail reception for So Cal alumni at 4:30 on the 26th at *Shutters* that will include a presentation by Profs Dan Kammen and Sol Hsiang. I hope you and the Senator will be able to attend the program and the subsequent mixer.

Dean Brady and I plan to be in LA the early evening of Wednesday, February 25th. Would you and Senator Liu be available and amenable to having dinner with us?

We could also get together for breakfast on the 26th if that is more convenient.

warm regards,

Annette
