Loose Change - Final Cut

LOOSE CHANGE – FINAL CUT details questions surrounding the events of 9/11 in a completely revised documentary since the original 2005 release of Loose Change. Was the attack in New York an inside job, did officials look the other way, or were they completely surprised -- you make up your own mind!

Loose Change Final Cut is the third installment of the documentary that asks the tough questions about the 9/11 attacks and related events.

This movie hopes to be the catalyst for a new independent investigation, in which the family members receive answers to their questions, and the TRUE PERPETRATORS of this horrendous crime are PROSECUTED and PUNISHED.

Vanity Fair - Loose Change, a documentary ...which just might be the first Internet blockbuster.

TIME MAGAZINE - Loose Change is a... blizzard of statistics, photographs, documents, eyewitness accounts and expert testimony set to a trippy hip-hop backbeat.

The Guardian - millions of people have heard its message. Like it or loathe it, you can't ignore Loose Change.
