Results of the Manual Tally of Votes Cast In the June 7, 2016 Consolidated Presidential Primary Election

Per California Elections Code §15360, 1% of randomly selected precincts and 1% of randomly selected vote by mail ballots cast in the election are required to be hand tallied to verify the accuracy of the voting system tabulation. Also, conditional re-approval by the Secretary of State of the county's accessible touch screen voting units requires a 100% manual tally of all votes cast on the units.

The public was noticed on June 8, 2016 that the random selection of precincts and batches would occur on June 13, 2016 at 9 a.m. and the manual tally of the ballots would commence following the random selection. The random selection was accomplished by blindly drawing strips of paper with precinct numbers printed on them. The tally began on June 16, 2016 and was completed on June 21, 2016.

One-percent of the 78 polling place precincts in the election equates to 1 precinct. One-percent of the 57,126 vote by mail ballots counted on or before election day equates to 572 ballots. Traditionally, El Dorado County draws additional random precincts to include ballots from each supervisorial district, city and state assembly district thus exceeding the legal requirement. Additional precincts and batches were drawn to include contests not present in the original selection(s).

A handwritten signature in black ink, appearing to read "William E. Schultz". The signature is stylized with a large, sweeping initial "W".
